

Facts and Figures

Particip GmbH provides consulting services for sustainable development. The management of change is a challenge that we at Particip are successfully committed to. Our people-oriented and participatory approach helps directing and shaping transformation processes for sustainable development.

Particip has its headquarters in Freiburg (Germany) and branch offices in Brussels (Belgium) and Belgrade (Serbia).

Particip's head office in the plus-energy building Sonnenschiff in Freiburg

The success of Particip is reflected in a constantly increasing turnover which will reach estimated EUR 41 million in 2017, with a positive balance throughout all past years. Since its establishment in 1989, Particip has successfully implemented over 1,800 projects in more than 150 countries and can rely on partner organisations in numerous countries worldwide.

Particip currently has a multi-cultural staff of over 75 in our offices in Freiburg, Brussels and Belgrade, as well as more than 200 other staff members in our projects worldwide. We have thereby established a worldwide network of qualified experts, and we have recruited over 340 short term experts in our projects in 2017.

Our approach

Sustainable development requires a people-oriented, participatory approach to management and consultancy. Technical inputs are only one important component to facilitate development. One of our strengths lies in co-ordinating multi-disciplinary and multi-national teams to achieve synergy effects. Our strong networking capacities help maximizing the value added of our services. Our reliable management system, toolboxes and our financial strength are a further backbone of our services.

Clients

Our teams work for international organisations such as the EU (EuropeAid and various General Directorates), the World Bank, the Council of Europe, etc. as well as for national governments and several bilateral development organisations (including GIZ, KfW, Danida, Finnish Ministry of Foreign Affairs, Norad and BTC).

Geographic Coverage

Particip implements projects worldwide, in Europe, Africa, Asia and Latin America. We provide our services very often in partnership with European firms and with a large number of partner institutions from the countries and regions in which we work. Local participation is a key element of our service approach.

Corporate Values

We are an independent company with the following corporate objectives:

- Customer orientation
- Professional and methodological competence
- Staff commitment
- Sustainability and viability of service delivery
- Social responsibility

Particip is certified according to DIN EN ISO 9001:2008. Our staff is strongly committed to effective planning, management and monitoring of service delivery with strong support of our project teams through headquarters.

Business integrity

Particip participates and supports the UN Global Compact initiative, on which our code of ethics is based. We consider business integrity to be an aspect of quality.
